

Data Handling

For a school project Ravi wanted to know the liking of sports of Grade 3 students. He decided to make a survey form and collect data. Following are the responses that he had collected. **Help Ravi make the bar graphs for the responses.** Make sure to include the title, scale, axis and labels.

Survey questions:

Q 1. Do you like sports? Yes/No

Response	Yes	No
Number of pupils	190	40

Q2. Which sport do you like the most?

(Responses collected)

Sport	Soccer	Basketball	Swimming	Tennis	Athletics
Number of Pupils	35	45	50	20	40

Solve the following word problems in your Math notebook.

- 1) There are 32 boxes of erasers in the supply closet. Each box contains 8 erasers. How many erasers are there in all?
- 2) There are 14 rows in the classroom. Each row has 6 seats. How many seats are there in all?
- 3) Pooja bought 47 packages of cookies for her party. Each package had 8 cookies. How many cookies did Pooja buy?
- 4) There are 9 piles of T-shirts in Maheshwari store. Each pile has 27 T-shirts. How many T-shirts are there in all?
