Language

A). Identify and write the main idea of the passage (in 2-3 sentences) given below. :

It has been said that to feel well, you must eat well. That is true, but you also need to get adequate amounts of exercise. The combination of a nutritious diet and an exercise program is the best thing you can do for yourself and those that love you. With a proper diet, you will more easily maintain the proper weight and get the nutrients your body needs to function properly. Add exercise to the mix, and maintaining the proper weight becomes easier. A proper diet consists of fresh foods that are low in fat and sugar, high in fiber, and includes plenty of fresh fruits and vegetables. This type of diet will help you ward off diabetes, high blood pressure, high cholesterol, and many forms of cancer. By adding exercise, you are keeping your heart healthy and your joints functioning properly, which also helps ward off the same diseases as well as arthritis. Recent studies have also shown that proper diet and exercise helps keep people

mentally fit also by lowering the risk of a stroke and even lowering your risk for developing Alzheimer's or other forms of dementia. So as you can see, proper diet and adequate exercise may just be the key to helping you live longer and healthier.

B). Parse and punctuate the sentence given below:

karan proudly owns two massive fierce black alsatian dogs

C). Answer the questions given below for the above sentence:

Q.1. Change the proper noun to a common noun.

Q.2. Change the adverb and see how the meaning changes.

Q.3. Find the subject and predicate/object in the sentence.
